You can check the status of your DX Tracked Mail items via the DX website at any time, and we will even contact you by email to tell you they are out for delivery with the DX courier. For maximum visibility and security, the service also includes the option of free, tamper-evident pouches.

- Pre 09h00 bar-code tracked delivery
- Courier signature on delivery
- Proactive confirmation by email that items are out for delivery
- Track your items via the web
- Free, tamper-evident packaging

Quick and easy to use

The service is very simple to use. Tracked Mail labels are purchased in advance, and then you simply keep them until you need them. To send a DX item on the Tracked Mail service, you address your document or parcel in the usual way, affix a bar-code label next to the recipient's DX address, and post it into your Outgoing Mail Box with your normal Document Exchange mail.
